RFS Preamble - Renewable Biomass 12-10-09.doc

OK, here's the latest version of the preamble based on written comments and discussions we've had. Please let me know if you have comments. I have to upload whatever I have to the shared drive for the next compiling before 8 am tomorrow to send to the workgroup and Gina, although changes can still be made after that.

Roland- there are some questions you had in your comments that didn't require changes to the preamble- I'll work on getting those answers for you at some point tomorrow, whether verbally or in writing.

Attached are comments on the renewable biomass part of the preamble, including comments on the write-up of the aggregate compliance approach. (Meg, my comments on the definitions have not changed from what I sent you last night.)
